

# NEW JERSEY AUDUBON

## The NJ American Kestrel Nest Box Project

Presented by William Pitts, Senior Zoologist, NJ DEP

The American Kestrel numbers are declining, particularly in the northeast. Bill Pitts will present the state ENSP's Kestrel nest box program, from inception to the present: preliminary findings, nest box installation, expansion, and the lessons learned along the way. Bill will also discuss the 2012 species listing, their geolocator project, the NJSEA landfill issue, and the work that's being done to minimize those types of impacts.
